

Please replace the first paragraph of page 7 with the following paragraph:

With continued reference to Fig. 1, there is illustrated a plurality of exemplary electronic devices in communication with portal 12 which may be utilized to communicate with a visual device 32 via portal 12, server 22, wireless LAN 24, and mobile device ~~platform~~ 26. For example, goggles 14 may be utilized by a viewer of visual data captured by visual data device 32. Such goggles 14 may facilitate the viewing of monographic or stereoscopic visual data captured by a video borescope or stereo image lens respectively. Computer 16 may be any computing device capable of receiving data and displaying it, as for example on a computer screen, and issuing commands, as for example through a keyboard associated with computer 16. In addition, a mobile computer 18, such as a tablet PC, may be used to send and receive data to and from visual data device 32.
